are part of the fixed recurring work schedule. However, irregular hours are deemed to be included in a firefighter's regular tour of duty if those hours are substituted for hours in the regular tour of duty for which leave without pay is taken, as provided in §550.1303(d).

[63 FR 64593, Nov. 23, 1998, as amended at 67 FR 15466, Apr. 2, 2002; 77 FR 28223, May 11, 2012]

## §550.1303 Hourly rates of basic pay.

- (a) For firefighters with a regular tour of duty that does not include a basic 40-hour workweek (e.g., firefighters whose schedules generally consist of 24-hour shifts with a significant amount of designated standby and sleep time), the hourly rate of basic pay is computed by dividing the applicable annual rate of basic pay by 2756 hours. The resulting firefighter hourly rate of basic pay is multiplied by all nonovertime hours to determine the pay for those hours.
- (b) For firefighters with a regular tour of duty that includes a basic 40-hour workweek, the hourly rate of basic pay is computed by dividing the applicable annual rate of basic pay by—
- (1) 2087 hours, for hours within the basic 40-hour workweek (or 80-hour biweekly pay period); and
- (2) 2756 hours, for any additional non-overtime hours.
- (c) A firefighter's daily, weekly, or biweekly rate of basic pay must be computed using the applicable rates, as derived under paragraphs (a) and (b) of this section.
- (d) If a firefighter takes leave without pay during his or her regular tour of duty, the agency shall substitute any irregular hours worked in the same biweekly pay period for those hours of leave without pay. (If a firefighter's overtime pay is computed on a weekly basis, the irregular hours must be worked in the same administrative workweek.) For firefighters whose regular tour of duty includes a basic 40hour workweek, the agency shall first substitute irregular hours for hours of leave without pay in the basic 40-hour workweek, which are paid at an hourly rate based on the 2087 divisor. All other substituted hours are paid at an hourly

rate based on the 2756 divisor, using the applicable overtime rate for overtime hours. The annual rate used to compute any such hourly rate is the annual rate in effect at the time the hour was actually worked.

 $[63\ {\rm FR}\ 64593,\ {\rm Nov.}\ 23,\ 1998,\ {\rm as}\ {\rm amended}\ {\rm at}\ 67\ {\rm FR}\ 15467,\ {\rm Apr.}\ 2,\ 2002]$ 

## § 550.1304 Overtime hourly rates of pay.

- (a) For a firefighter who is covered by (*i.e.*, nonexempt from) the overtime provisions of the Fair Labor Standards Act (FLSA), the overtime hourly rate of pay equals 1½ times the firefighter hourly rate of basic pay for that firefighter, as established under §550.1303(a) and (b)(2).
- (b) For a firefighter who is exempt from the FLSA, the overtime hourly rate is computed as provided in \$550.113(e).
- (c) For any firefighter, overtime pay for any pay period is derived by multiplying the applicable overtime hourly rate by all overtime hours within that period.

## §550.1305 Treatment as basic pay.

- (a) The sum of pay for nonovertime hours that are part of a firefighter's regular tour of duty (as computed under §550.1303) and the straight-time portion of overtime pay for hours in a firefighter's regular tour of duty is treated as basic pay only for the following purposes:
- (1) Retirement deductions and benefits under chapters 83 and 84 of title 5, United States Code:
- (2) Life insurance premiums and benefits under chapter 87 of title 5, United States Code:
- (3) Severance pay under section 5595 of title 5. United States Code:
- (4) Cost-of-living allowances and post differentials under section 5941 of title 5, United States Code; and
- (5) Advances in pay under section 5524a of title 5, United States Code.
- (b) The straight-time portion of overtime pay for hours in a firefighter's regular tour of duty is derived by multiplying the applicable firefighter hourly rate of basic pay computed under §550.1303(a) and (b)(2) by the number of overtime hours in the firefighter's regular tour of duty.
